

# RISENOMICS

Official Whitepaper

<https://t.me/risenomics>

## What we do here?

We are an automatic rebasing token that provides \$BUSO rewards to all holders.

Asking yourself what a rebase token is? Pretty simple explanation. Rebase is working in this logic, reducing the supply, increasing price to put the chart in a upwards trend.

This is an unique opportunity for the holders. The chart will always pump and the \$BUSO will be distrusted to all wallets.

# Rebase and tokenomics

A rebase (or price-elastic) token is designed in a way that the circulating token supply adjusts (increases or decreases) automatically according to a token's price fluctuations. This expansion and contraction is what we call a rebase mechanism.

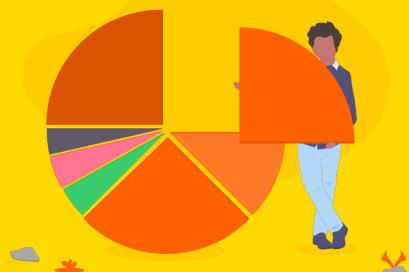

Rebase tokens are somewhat akin to stablecoins, in the sense that they both have price targets. However, unlike stablecoins, rebase tokens' have an elastic supply, meaning the circulating supply adjusts accordingly to supply and demand, without changing the value of the tokens in users' wallets.

## Total Supply Initial Distribution:

5% Marketing

4% Team & Development

91% Pancakeswap LP

# Rewards Distribution

## \$BUSD Rewards

5% of each tax collected to distribute \$BUSD to all holders!  
4% to ensure the non-stop marketing.  
2% Development Fee to ensure the healthy growth of the project.

## Auto-locking liquidity

2% Liquidity goes directly into the LP pool the increase the price level. This contributes to lower volatility and a continuously increasing price floor.

## Rebase

RISENOMICS has a rebase future which will create an excellent upwards chart all the time and support our further growth.

# Useful information

## How do I get my rewards?

To receive \$BUSD rewards, all you have to do is hold RISENOMICS tokens in your wallet.

Rewards are distributed automatically based on your RISENOMICS holdings and daily volume.

## How can I see my rewards ?

Add the following \$BUSD token address to your wallet and watch your holdings rise!

**0XE9E7CEA3DEDCA5984780BAFC599BD69ADD087D56**

## What if I sell my RISENOMICS?

As an incentive to hold your RISENOMICS tokens, selling any amount of tokens will cause you to lose the privilege to receive any further \$BUSD rewards for the next 3 hours.

Buy at least 1 RISENOMICS token after the 3 hours cooldown period to start receiving the rewards again.

# Contract information and Wallets

Contract Address on BSChain (Verified):

 **0XBBC56060D112B3C7D4A4E35D321027138E62FA72**

**BUY FEE AND SELL FEE = 13%**

Marketing Wallet Address:

 **0XDD559608DFC5F92348E9040A8E1F44091C54DA7B**

Community Wallet Address:

 **0X9E4B7ED884ECA7567390D08A2F100AD50CDBC0C1**
